Additional data

Evidence of my friend Tamara T. The events took place in the summer of 1991, Troyeschina. The apartment is on the street. Chestnut of nights year-old son woke her mother and complained that it scared a strange creature, What a little man running around the room and then jumped on the couch. To allay children's fears his mother took his little son's hand and peered into the room. Creature was not there, but outside ... Outside the contrary between the houses was a large fireball. A woman was seriously frightened, and wished that her husband was out fishing. Rest of the night was carried out with almost no sleep.

This story had its continuation. After a few months old son began to talk about his new friends. He said he had some substance to it and offer my mother to fly with them. The woman flatly refused. Present during the conversation neighbor jokingly suggested his candidacy. Son to think, and said that he asked permission from their friends. A few days later a neighbor asked the child if she was allowed to go sailing. And then the little boy uttered the phrase, after which it was not joking Yes, I agree! But only when you are a big moon. In the future child has nothing to tell - strange creatures he was banned.

Here's another piece of evidence, unfortunately not dated, even a year. B. Sum of Romanchenko in its publication UFO over Kiev writes They say that the UFO hovered over Desenkoy near the Moscow Bridge (Kiev). It was Sunday. The summer. On a beach full of people. Plate is very well seen against the background of azure sky and the blue surface of the water. Were visible even pink dots, pulsate, like advertising lights. Unfortunately, the vision soon vanished (V. Romanchenko. UFO over Kiev Well. Kiiv», № 9-10 1995). There is also evidence of numerous UFO sightings from the Castle, the (Castle Hill Well. Playbill, 15-21.09.2004). According to rumors, a park often arrive Navodnitsky UFO (G. Fudim). In knigeRomanchenko Sum of its publication in UFO over Kiev writes They say that the UFO hovered over Desenkoy near the Moscow Bridge (Kiev). It was Sunday. The summer. On a beach full of people. In the book, Kiev Raokrioma magician The Secret of Thunder 13 is mentioned, that in 2002 the representatives of the Knights Templar (by that time already overclocked) photographed UFOs near Green Theatre. In televezionnoy program parallel world (Channel STB), two witnesses described the emergence of several objects resembling bombs over the bridge and the Caves of the cigar-shaped object Pechersk Lavra.

Analysis

Despite the relatively small number of reported UFO sightings over the facts of Kiev, a few observed patterns. Ufologists have long observed activation of a UFO in 1989, currently known more than a hundred cases of UFO sightings over Kiev. Peak occurrences (mini-flyap) is for 1989-1990. The activation of the UFO in 2006-2009. The impression is that UFOs are attracted complications of the political situation in the country.

Twice over the water park (in 1980 and 1989.) During the summer period was observed unusual barrel-shaped UFO. In 1987, a teenager Kiev agreed to fly to another planet and the barrel was stolen vehicle.

In November 1990, a UFO appeared over the place, where once were located n. John Chrysostom (Iron). Interestingly, the annual Christian festival, dedicated to St. John Chrysostom, and coping in November (26th, New Style).

Minimum of UFO activity is in January, April and August, the maximum - in May and December. Spring and winter - most observations fall to 25-30% of patients less summer - the minimum number of observations.

Most observations occurred in the evening, from about 21.00 to 23.00. Most often seen UFOs in the form of a globe (20 cases), about half the observations have on disk-shaped objects. The triangular shape is observed in less than ten cases a little less observation falls on the elongated (cigar) and elliptical body (about four observations). Among them we should mention two November 29, 1989 over the southern tip of Kiev, the right bank (Holosiivskyi forest) and almost a year - November 8, 1990 on the southern tip of Kiev left bank (of the Kharkov array). Barrel-shaped and square UFO seen twice. Once observed objects in the form of yuly and dumbbell. Observation of the mini-comets in December 2005 can be attributed to the spherical UFOs, plasma which, under the pressure of the air formed a tail. Polymorphism was observed on several occasions - the apparent change in shape of a UFO. So an object that turned into a luminous cross, seen twice - November 12, 1989 over the ENEA and November 29, 1989, flying in the direction of ENEA.

Recent years have seen the activity of numerous small objects flying swarm (sometimes lining up in a specific geometric shape).

Now consider the districts of UFO sightings and their trajectories. Until 1990, most of the UFO clearly gravitated to the p-well and ENEA Goloseyevsky forest. According to legend, the cows, which grazed here in the Middle Ages, gave birth to dragons (unusual freaks) instead of the calves. Starting in the 90s. More than half of the observations of unidentified objects have to Troieschyna. Seen UFO activity in the district of the airport, Juliani. Flight trajectories other UFO almost always directed toward the Dnieper River - on the left bank.
